Irina Marchenko, Chief Executive Officer of AVANGARDCO IPL, commented:

"2013 was another successful year for AVANGARDCO IPL. During the year the Company produced more than 7 bln eggs and around 23 thousand tonnes of dry egg products, solidifying its position as the largest producer of shell eggs and dry egg products in Ukraine and Eurasia. At the end of the year, AVANGARDCO IPL increased its revenue by 5% to US\$ 661 mln. Net profit grew by 4% to US\$ 238 mln and EBITDA margin increased to 45.6%.

In 2013, the Company successfully completed the construction of two poultry complexes for egg production "Avis" and "Chornobaivske" with the capacity of more than 11 mln laying hens. As a result the Company's egg production capacity increased to 8.6 bln pieces. The Company installed at these poultry complexes the most advanced technologies and production equipment from the leading suppliers which is expected to result in improved production efficiencies and decrease the cost of production.

In the reporting period, AVANGARDCO IPL increased the volume of processed shell eggs by 73% year-on-year to 1.864 bln pieces. The significant growth in production volume was due to the successful completion of the first stage of capacity expansion from 3 mln to 6 mln eggs per day at the egg processing plant "Imperovo Foods". We plan to further increase its processing capacities up to 10 mln eggs per day to better satisfy the growing demand for egg products due to the increase in food production globally.

Since the launch of the Company over ten years ago, AVANGARDCO IPL has developed a large client base. We sell our products across Ukraine, as well as export them to 33 countries in the Middle East, Africa, Asia and the CIS. In 2013 the Company continued to actively develop its export sales which accounted for 29% of total sales revenue compared to 20% in 2012. During the year we exported almost 1.9 bln eggs and egg products in egg equivalent.

Our 2013 financial results serve as a proof to the success of the Company's development strategy. We have completed the construction of our major investment projects. The Company is the largest producer of shell eggs and dry egg products in Ukraine and Eurasia, as well as developed a wide distribution network across its key markets while delivering consistently strong financial performance".

Political situation

AVANGARDCO IPL continues to closely monitor the political situation in the country, which has worsened since the beginning of 2014 and would like to reassure all its stakeholders that all the Company's production facilities operate in usual mode.

The Company will continue to update the market with any further developments.

Outlook

In 2014, the Company will continue to commission new production facilities at poultry complexes "Avis" and "Chornobaivske". AVANGARDCO IPL plans to increase the processing capacity up to 10 mln eggs per day at its egg processing plant "Imperovo Foods".

The Company will pay special attention to the distribution of products and pricing, as well as cost control, taking into account significant UAH devaluation. As far as the Company's assets in Crimea are concerned, AVANGARDCO IPL plans to limit their use until the situation in the region has stabilized.

In 2014, the Company will continue to expand its distribution network across all channels, including developing its retail channel, as well as further penetrating the market with "Kvochka"-branded products. Export strategy involves expanding into new export markets including the EU market. Starting from 2013 as a result of the significant increase in the production of dry egg products the Company has been actively developing its distribution. The Company is negotiating with new customers and introducing loyalty programmes for its clients. In 2014 we will continue to develop this area.

In 2014, the Company expects stable demand for eggs in Ukraine and a growing demand for eggs and egg products in global markets. The Company expects moderate growth in prices for shell eggs and egg products during the year.

Dividends

As AVANGARDCO IPL has announced before, the Company adopted its dividend policy in September 2013. The dividend payout ratio for dividend payments in 2014 on the basis of 2013 financial results was set at 25%. We plan to approve the payment of dividends at the next AGM in 2014.
